SERVICE.

SERVICE®

Service® is an exclusive line of serveware, supplies, and equipment for culinary-based establishments seeking unique and efficient solutions. Included in the line are plastic, Styrofoam, and metal products to meet all types of needs.

Manufacturing plant – ITALY, Reggio Emilia

Manufacturing plant – USA, Charlotte

THE COMPANY

Founded in the province of Reggio Emilia, Italy in 1967, PreGel has become an international powerhouse in the foodservice sector of manufacturing and distributing dessert ingredients and semi-finished products for artisanal gelato, sorbetto, premium ice cream, soft serve frozen desserts, and pastry.

PreGel's business model is to create products that combine both quality and innovation, while continuing to develop the frozen dessert market around the world. Among PreGel's most innovative creations are Gran Stracciatella Reale Arabeschi® (Chocolate Chips), and the world-renowned Yoggi® Powdered Flavour (Yogurt): the first powdered flavour mix developed over 30 years ago for the frozen dessert industry.

We understand the importance of providing superior specialty dessert ingredient solutions; nonetheless, supporting our business partners is a main priority. That is why we offer exceptional training courses at our state-of-the-art International Training Centers (ITC) worldwide. Today, with 29 locations and expanding, the PreGel ITC intends to offer the best quality of training provided by a team of skilled chefs and educated industry professionals.

PreGel's products and services are available in more than 130 countries thanks to our 20 subsidiaries and network of distributors serving over 30,000 clients daily.
